Experience

Galentic Technologies (Client: ICICI Prudential AMC)

Aug 2025 – Present

Frontend Developer – React.js, Next.js, TypeScript, Javascript, Redux, Figma

Mumbai, India

- Built **Terms & Conditions** module with PDF upload/preview, enabling seamless compliance updates for investors and distributors.
- Developed secure **Report module** for investment reports, improving accessibility and transparency across investor-facing modules.
- Designed and implemented **bank reconciliation** and MMP processing screens using Figma + ReactJS, streamlining financial workflows.
- Enhanced ICICI Prudential's website by fixing production bugs and **optimizing performance** across investor-facing modules.
- Currently developing **NFT stock constraint** feature where user can apply constraint on their stock
- Collaborated via **GitHub** (PRs, merge conflict resolution) and automated deployments using **GitHub Actions**.

Paymentz – Payment Gateway Solutions

Jan 2025 – Jul 2025

Frontend Developer – Next.js, React.js, TypeScript, CI/CD

Mumbai, India

- Developed scalable **dashboards** using Next.js, React.js, and TypeScript, deployed live for merchant operations.
- Built responsive **Merchant Dashboard** with advanced data visualization, enabling merchants to reconcile transactions **50% faster**.
- Optimized performance by reducing JavaScript **bundle size 30%** and implementing **CI/CD pipelines** via GitLab and Jenkins.

Cognizant Technology Solutions

Jul 2022 – Sep 2024

Frontend Developer – React.js, TypeScript, Javascript Redux

Pune, India

- Designed and maintained enterprise-grade web applications using **React.js, TypeScript, and Redux**.
- Reduced application **load times by 35%** through code splitting and lazy loading strategies.
- Created reusable custom hooks and managed complex global state, **decreasing defect rates by 40%**.
- Resolved **20+ performance bottlenecks** using Chrome DevTools, improving app performance scores.

Projects

Blog Application | GitHub | ReactJS, Redux Toolkit, TailwindCSS, Node.js, Express, MongoDB

Nov 2025 – Present

- Developed a full-stack blog platform with **authentication, CRUD operations**, and role-based access control.
- Implemented global state management using **Redux Toolkit** and optimized UI with TailwindCSS.
- Built secure REST APIs with **JWT authentication**, input validation, and rate limiting.
- Integrated rich text editing, **image uploads**, and XSS protection using sanitization libraries.

QKART Frontend | ReactJS, Material-UI, Responsive Design

Apr 2023 – May 2023

- Built a responsive **e-commerce platform** with product listing, search, filtering, and cart functionality.
- Improved user experience using **Material-UI** and implemented authentication with protected routes.

Technical Skills

Languages: TypeScript, JavaScript, HTML5, CSS3, Python, C++

Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Context API, Node.js, Express.js, GraphQL, REST API

Frontend: TailwindCSS, Material UI, RizzUI, Responsive Design, State Management, Code Splitting, Lazy Loading

Databases: MySQL, MongoDB

Tools: Git, GitHub, GitHub Actions, Jenkins, GitLab CI/CD, Postman, VS Code, Figma, Chrome DevTools, Linux

Other: Microsoft Azure, Agile/SDLC, Low-Level Design (LLD), High-Level Design (HLD)

Achievements

Solved **400+ Data Structures and Algorithmic** problems on coding platforms such as **LeetCode** and GFG.

Passed **Azure Fundamentals Certification** exam, validating cloud foundational knowledge.

Education

Fr Conceicao Rodrigues College of Engineering

July 2018 – June 2022

B.E in Information Technology (IT)

CGPA: 7.85
