Professional Experience

Full Stack Developer

Aug 2025 – June 2026

Galentic Technologies (Client: ICICI Prudential Asset Management)

Mumbai, India

- Built **Terms & Conditions module** with PDF upload/preview, enabling seamless compliance updates for investors and distributors.
- Developed secure **Report module** for investment reports, improving accessibility and transparency.
- Designed and implemented **bank reconciliation** and **MMP processing** screens using Figma + ReactJS, streamlining workflows.
- Enhanced ICICI Prudential's website by fixing production bugs and optimizing performance across investor-facing modules.
- Currently developing **NFT stock constraint feature** with custody-level restrictions by DI code/account.
- Collaborated via GitHub (PRs, merge conflict resolution) and automated deployments using **GitHub Actions**.

Full Stack Developer

Jan 2025 – Jul 2025

Paymentz – Payment Gateway Solutions

Mumbai, India

- Developed scalable dashboards using **Next.js**, **React.js**, and **TypeScript**, deployed live for merchant operations.
- Built responsive Merchant Dashboard with advanced data visualization, enabling merchants to reconcile transactions **50% faster**.
- Optimized performance by reducing JavaScript bundle size **30%** and implementing CI/CD pipelines via **GitLab** and **Jenkins**.

Full Stack Developer

Jul 2022 – Sep 2024

Cognizant Technology Solutions

Pune, India

- Designed and maintained enterprise-grade web applications using **React.js**, **TypeScript**, and **Redux**.
- Reduced application load times by **35%** through code splitting and lazy loading.
- Created reusable **custom hooks** and managed complex global state, decreasing defect rates by **40%**.
- Resolved 20+ performance bottlenecks using Chrome DevTools, improving app performance scores.

Projects

Blog Application | GitHub | ReactJS, Redux Toolkit, TailwindCSS, Node.js, Express, MongoDB

Nov 2025 – Present

- Developed a full-stack blog platform with authentication, CRUD operations, and role-based access control.
- Implemented global state management using **Redux Toolkit** and optimized UI with **TailwindCSS**.
- Built secure REST APIs with **JWT authentication**, input validation, and rate limiting.
- Integrated features like rich text editing, image uploads, and XSS protection using sanitization libraries.

QKART Frontend | ReactJS, Material-UI, Responsive Design

Apr 2023 – May 2023

- Built a responsive e-commerce platform with product listing, search, filtering, and cart functionality.
- Improved user experience using **Material-UI** and implemented authentication with protected routes.

Technical Skills

Programming: TypeScript, JavaScript, Python, C++

Frameworks: React.js, Next.js, Node.js, Express.js, FastAPI, GraphQL, REST API, Redux Toolkit, Context API

Frontend: HTML5, CSS3, Tailwind, Material UI, RizzUI, Responsive Design, State Management

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, VS Code, Linux, GitHub Actions, Jenkins

Other: Microsoft Azure, Agile, SDLC, Low-Level Design (LLD), High-Level Design (HLD)

Achievements

- Fortified coding expertise by tackling **400+ data structures** and algorithms problems on platforms such as LeetCode and GFG. Passed Azure fundamentals certification exam which validates my cloud foundational knowledge.

Education

Fr Conceicao Rodrigues College of Engineering
B.E in Information Technology (IT)

July 2018 – June 2022
CGPA: 7.85
